UNION BAY IMPROVEMENT DISTRICT
BYLAW NO. 221

Fire Protection and Streetlighting 2010

Rationale

1. The Union Bay Improvement District has a mandate to replace their existing fire hall as well as purchase two new fire trucks. This has been a recommendation of the 1996 Fire Commissioner's Report for Union Bay Improvement District. Increased services and operating requirements of the fire department require that additional funds be requested. The Improvement District still anticipates replacing the fire hall and fire truck before 2011.

Preliminary Approval has been arranged for the Fire Hall Construction and a Capital Tax Advance set-up in the amount of \$2,000,000.

Preliminary Approval has been arranged and a Capital Tax Advance set-up for the purchase of a Fire Rescue Truck in the amount of \$100,000.

2. Standards for SCBA and fire rescue equipment have changed and will need to be replaced to meet safety standards and regulation requirements. It is necessary to establish funds to meet these requirements.
